

# Project Management Examination

The Project Management Exam concludes Mannaz Project Management Training and tests the knowledge and practical know-how you have gained from the training.

The Project Management Exam is a three-hour written exam where you will demonstrate the knowledge you have acquired about project management.

The Project Management Exam is split into three parts, in which you will be given multiple-choice questions, asked to provide substantiated solutions to questions and asked to demonstrate your ability to assess a situation, choose a general method and solve a problem related to project management.

**3,200 kr**

**Duration: 1 days**

**Next available date: 2 Sep. 2019 Online  
eksamen/exam -**

## Participation

**Project Management 1** - Overview, content, method (or similar\*)

**Project Management 2** - Team management, commitment, project start-up

**Project Management 3** - Implementation, results

**Project Management 4** - You as a project manager

\*If you already possess knowledge similar to Project Management 1, you are not required to complete this course.

---

## Benefits for you

The examination is based on the knowledge you have gained from Mannaz Project Management Training and documents the fact that you have been tested within the field of project management. Once you have passed the exam, you will receive a certificate from Mannaz confirming your completion of Project Management 1-4 (or 2-4) and that you have passed the Mannaz Project Management Examination.

### The examination shows that you:

- Have gained an overview of the many aspects of project management
- Are able to handle situations from a holistic perspective
- Are able to choose a substantiated project management method
- Are able to apply project management methods, techniques and tools

### Benefits for your company

- A project manager with a holistic perspective of the company's projects
- A project manager with documented knowledge within project management
- A project manager who carefully applies the most effective project management methods

## Part of Mannaz Project Management training

Project Management 2 is part of Mannaz Project Management training. The training consists of four courses, which can be taken consecutively or as needed.

## Practical exam

The Project Management Examination is a three-hour exam. The exam is an online test and is a closed-book exam. You must take the Project Management Examination within one year of completing the last project management course. If you do not pass the exam, you may try to resit it within one year.

The exam questions are split into three parts:

- Part 1: Multiple-choice questions with three options
- Part 2: Questions to be answered with substantiated solutions
- Part 3: Questions that will show your ability to assess a situation, choose a general method and solve a problem

Once you have passed the exam, you will receive a course certificate
