

Project Management 3

Execution, results and completion

Create the right results

After a good start-up, with a planning workshop and team building, now begins the long haul of achieving the results.

Project Management 3 is an advanced project management course where you will learn to apply a number of leadership and management methods within project management, which provide you with a better overview and a better basis for making decisions in critical situations.

You will learn to navigate through the phases of project management as requirements change, with a focus on progress, creating results and completing the project.

Benefits for you

- Establishing a professional and effective framework for the project and the project team during the implementation and completion phases
- Learning how to handle change and keeping the project on track
- Managing change – within the project and among stakeholders
- Targeting your communication towards the project team and the environment
- Evaluating on an ongoing basis and keeping the progress going
- Targeting your leadership effort

Benefits for your company

- An improved start-up of projects in the organisation
- A more dynamic, effective and committed team that achieves their goal(s) faster
- Good, creative solutions

Who takes part?

Project managers and sub-project managers who wish to get better at delivering in a complex environment and during constant change. The course requires you to have a professional background that corresponds to Project Management 1 or another course that has provided you with a fundamental insight into project management and tools. The leadership and management tools that you will learn about on the course can be used in all types of projects.

On the course you will work on:

- Effective implementation and completion of a project
- Targeted communication
- Various project management methods
- Change management
- Situational leadership
- Conflict handling and negotiation

I'm so glad I chose Mannaz! In every way – from the accommodation and service to the preparatory material and the way the courses were conducted. I have personally benefited so much from participating, both professionally and personally. The facilitator was extremely competent and knowledgeable and had a lot of good points from the "real world". That really added value and connected the training with our daily lives.

"Project Management 3 was yet another very well-prepared course. ALL the details were in order. The facilitators were extremely well prepared and even very keen on incorporating the participants' projects. I would like to emphasise the topics of Completion and Change Management in particular. Always great service, great people and great energy. I would highly recommend this course to others."

Hands-on facilitation

The course takes its starting point in a general case story, which is a coherent project course where as a participant, you will be challenged regarding both your own and others' handling of the challenges associated with the project. Based on the course of the project, you will test various methods and ideas and receive input from the other participants and the facilitators.

During the course you will gain an in-depth insight into relevant knowledge and tools, which will be discussed as well.

Facilitation days – from start to finish

Day 1: 09:00–17:00 CET

Day 2: 09:00–17:00 CET

Day 3: 09:00–16:00 CET

Digital learning

In addition to the digital learning modules for Project Management 3, you will also have access to the learning modules from Project Management 1 (excluding the pre-test and the

post-test).

PMI®, PMP®, and PMBOK® are registered marks of Project Management Institute, Inc.
