

PRINCE2® Foundation

Get ready for the future of project management with PRINCE2®

Flawless project management

When participating in PRINCE2® Foundation, you will gain an insight into and work with the PRINCE2® method. With the PRINCE2® method, you will increase the success rate of your projects because you will be applying a method that eliminates the risk of errors and failed projects.

PRINCE2® gives you the tools to achieve more effective project management where the aim is increased business benefits. Furthermore, you will gain productive project management collaboration, both internally and externally in your organisation.

Who takes part?

Project managers in private and public organisations. Some project experience is required as the course focuses on process-oriented project management according to the PRINCE2® method — not on specific tools for project management.

The course is for individuals wishing to gain an insight into the method. PRINCE2® is not a method that project managers can choose to use themselves. It is a general method, which the organisation can choose to follow in order to optimise project management. Hence, you may be involved in projects that are being conducted according to the PRINCE2® method, or you may collaborate with clients or suppliers who use the method.

On the course you will work on:

- Processes and sub-processes within the PRINCE2® method
- Planning, management and stages
- Quality project environment
- Change management Tips and advice for the exam

- Topics and principles of the PRINCE2® method
- Risk management
- Version management

The PRINCE2® method

PRINCE2® is a best-practice project management method, which ensures that the project organisation is in place

from project start and that management roles and responsibilities have been agreed upon and made visible. The method consists of a process model that serves to guide the project management through all the processes required to ensure that the project delivers the result, which will generate the expected benefits from a business point of view. The cornerstone of the method is hence the business benefit.

Preparation

Preparation prior to course start:

You should plan to spend 30—50 hours of preparation reading and solving assignments.

All preparation material and information about your exam will be available on My Mannaz approx. 3-4 weeks before course start. You will also receive the official PRINCE2® manual as an **e-book** 3-4 weeks prior to course start.

It is important that you prepare before the course starts in order to get the most out of it. The individual assignments, which you complete in the evenings between course days, are an important part of preparing to pass the exam.

Course structure

The course runs over 3 consecutive days, and includes both preparation before the start of the course and evening work during the course itself.

During the course days, we will review the PRINCE2® theory, and you will practice answering exam questions individually and in groups. We will be using various exciting forms of instruction at the course to ensure variation and optimal learning.

Mannaz is an accredited PRINCE2® training organisation (ATO) approved by PeopleCert on behalf of AXELOS who administers PRINCE2®. All course materials are accredited by PeopleCert as well. The course and the exam will be conducted in English.

Examination

About your exam

The PRINCE2® Foundation exam has the following format:

- Multiple choice questions in English
- 60 questions per paper
- 33 marks required (out of 60 available) to pass: 55%
- One hour's (60 minutes) duration
- Closed book

If you pass your exam, you will receive your official PRINCE2® Foundation certificate electronically directly from PeopleCert.

How to take your online exam

As of 1 February 2022, your PRINCE2® Foundation exam is no longer part of the course days, but must be taken online on your own directly with the official exam provider, PeopleCert **after** the course.

You can choose the day and time of day that fits best in your calendar.

We will, of course, also send you a detailed description of what you need to be aware of in connection with your online exam.

Facilitators

The exams will be invigilated by one of our experienced and competent PRINCE2® facilitators, who use great presentation, variation and commitment to make the material interesting, vibrant and relevant.

All facilitators are accredited by PeopleCert on behalf of AXELOS .

Do you need tools?

Combine PRINCE2® Foundation with project management

With PRINCE2® you get the best-practice management method, which teaches you when to do what in your project – but not how to! In other words, PRINCE2® does NOT provide you with tools. It therefore makes good sense to combine PRINCE2® with Project Management 1 or IT Project Management 1. This will give you the tools as well, so that you know how to act to achieve greater success in your PRINCE2® projects.

*Price for two courses. The courses are booked together and conducted within six months. If you deregister from one of the courses, you will be invoiced for the full price of the course that you participated in.
