PRINCE2® PRACTITIONER

PRINCE2® Practitioner will build on your management training in PRINCE2® Foundation. You'll be certified as a 'Registered PRINCE2® Practitioner' once you've passed the exam. As well as preparing you for the PRINCE2® exam, the course will expand your project management skills. We'll review the theory using a variety of learning methods.

PRINCE2® is a best practice project management method that ensures that project organisation is set from the beginning of a project. It also ensures the roles and responsibilities of the management team are decided and visible. PRINCE2® has a process model at its core, the purpose of which is to ensure the project delivers the expected commercial outcome.

You'll practice using the method and answering exam questions, individually and in groups. If you want to make the most of the PRINCE2® method, this course is for you.

You can also save money by purchasing [PRINCE2® Foundation](#) and [PRINCE2® Practitioner](#) in a combined course package.

Participant Profile

Project managers working on projects conducted according to the PRINCE2® method, or project managers who collaborate closely with clients or suppliers who use the method.

You must have a solid knowledge of the PRINCE2® method and either have passed the Foundation exam or be IPMA® A-, B-, C- or D-certified or PMI® PMP- or CAPM-certified.

This course is for you if you:

- 🕒 want to be examined as a 'Registered PRINCE2® Practitioner', to enable you to apply the method fully.
- 🕒 passed the PRINCE2® Practitioner exam more than 3 years ago and want to keep your status as Registered PRINCE2® Practitioner.

"I have understood the material much better than if I had just taken it all online. You are excellent at putting theory into practice and creating hands-on activities that can also be applied in practice."

- Frida Kern-Jespersen, 2BM A/S

Programme structure and content

This course is held over 2 consecutive days.

Before the course, you need approx. **10-30 hours of preparation** time.
